### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The specific methods and structures as recited are not taught in the prior art of record. Furthermore, the specification addresses specific problems associated with actually using the methods and structures as claimed in functional circuits, and presents specific techniques that would solve such problems.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The references made of record on the PTO form 892 show prior art nanowire conductive structures and methods.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to S. Crane, whose telephone number is (571) 272-1652.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist, whose telephone number is (571) 272-1562.
